February 27th, 2019
Greenville, SC

COGNEX

RESERVE YOUR SPOT TODAY!

Greenville, SC | February 27th, 2019

Join us for our 2019 **Lensing and Lighting Machine Vision Symposium**. You will be introduced to the very latest in lighting, lensing and vision technology and hear from the nation's top engineers who will demonstrate and showcase:

- LED lighting technology for image processing inspections
- Using light wavelength, illuminating distance and angle for precise lighting solutions
- Achieve zero distortion and conquer demanding vision tasks with the very latest in optic technology
- hands-on symposium providing insight and ideas to tackle your machine vision challenges.
- 2D and 3D vision tools for high speed image acquisition and processing

Registration is free but required to attend.
